Los Angeles County High School for the Arts

Principal's Message

After eight years, five school administrations, and two postponements, we have now completed our WASC accreditation review. The process involved participation from everyone in the school community. I wish to extend my gratitude for helping make this entire process—from self-study to WASC visit—such a thoughtful and meaningful one. Now the real work begins!

Although we will not learn the length of the accreditation term until mid-June, I want to report that the findings from the visiting team were very positive and encouraging. The committee noted school-wide strengths, including passionate and dedicated students, enthusiastic faculty and staff, and parent support, as well as school-wide areas for improvement. These areas for improvement should come as no surprise to those of us familiar with LACHSA including the implementation of a system for data-driven decision making and the need to examine student workload, among others.

As soon as the final report is delivered to the school, I will make it available to everyone in our community. In addition please watch your e-mail for information regarding a follow-up townhall meeting for parents and families. At this meeting, I will review the specific finding from the WASC visit and outline our plans for the future.

I am deeply committed to preserving and strengthening the areas of our school that are successful and equally committed to focusing on areas that need improvement. The visiting team reminded us that every school has areas of growth and we, at LACHSA, have much to celebrate!

George Simpson

Upcoming Events
